

Web Hosting Package Selection

C2IT Consulting, Inc. offers three web hosting packages for our clients. It is our goal to become your **loyal partner** as we host, maintain, and help you further develop your web presence. To that end, all of our hosting packages include some level of **support**. It is our firm belief that organizations need more than just a place to park their website. In today's ever-changing world, the content of your site needs to be consistently "fresh" as well. Whether that means consistent updates, feeds from other sources, or simply a fresh graphic every now and then will depend on your organization, but we are here to help you.

Please review and select from one of the three packages using the form below. A plan detail and comparison sheet is provided on the second page, and you may visit <http://www.c2itconsulting.net/Products/CMSWebsites/Hosting.aspx> for even more information. If you need help selecting a plan, please email us at info@c2itconsulting.net. Once you have made a selection and filled in your contact information, you may return the form to us via e-mail, postal-mail, or fax.

Thank you for allowing us to serve you.

Chet Cromer, President
